I. Statement of Policy

The Board of Education will provide transportation for students under provisions of state law and regulations. The superintendent of schools shall administer the operation so as to:

1. provide for the safety of students, including consideration of hazardous conditions whether or not described in this policy;
2. provide for appropriate supervision for students while on school transportation, consistent with the Board's student discipline policy; and
3. assist disabled students by providing appropriate specialized transportation when required by law.
4. enrich the instructional program through carefully planned field trips as recommended by the staff.

II. Definitions

1. "School transportation" means the procedure, program, or fully effective and implemented plan by which a pupil is conveyed to and/or from school from his/her residence or the assigned bus stop at public expense, whether by use of publicly owned equipment or by contract. Such transportation shall be over public roads approved and maintained by the municipality or the State of Connecticut or private roads approved pursuant to C.G.S. Section 10-220c.
2. "Walking distance" means the linear measure of a prescribed or authorized pedestrian route between the pupil's residence and his/her school from a point at the curb or edge of a public or private road nearest the pupil's residence to a point at the entrance of the school, or a safe entrance to the school grounds

- located within one hundred feet of the school building entrance or the bus pick-up area, or the route from the point on the public thoroughfare nearest the residence to the school bus or vehicle embarkation point established by the Tolland Board of Education.
3. "One mile walking distance" means a reasonable measurement of a route to be traversed extending from the point of measurement at least 5,280 feet, but not more than 5,380 feet.
 4. "Grade K" means kindergarten, or a school program appropriate to a beginning pupil.
 5. "Hazard" means a thing or condition, as prescribed in this policy under "Hazardous Conditions--Guidelines" that affects the safety of pupils walking to or from school and/or to or from a designated bus pick-up area.
 6. "Sidewalk" means a portion of the landscape right of way approximately three feet wide, usually parallel to the traffic lanes which may be paved or unpaved, and marked by curbing, drainage ditch, grass area or fencing; apart from and independent of any white line safety markings along the street pavement.
 7. "Raised walk area" means a portion of the landscape right of way approximately three feet wide, usually parallel to the traffic lanes which may be paved or unpaved, distinguished by some elevation above the street pavement level and marked by curbing, drainage ditch, grass area or fencing; apart from and independent of any painted safety markings along the street pavement.
 8. "Walking route" means the route that the student is expected to travel between his/her residence to and from school and/or an assigned bus stop.
 9. "Bus stop" shall be defined as a geographical location designated by the Board of Education, school administration, or their designee where students can safely wait for purposes of embarking or disembarking a school bus.
 10. "Pupil" means any individual of school age enrolled in a public or nonprofit private school located within the school district or contiguous school district as the case may be.

III. Provision of Transportation

Transportation by private carrier may be provided whenever such practice is more economical than using school district-owned/leased facilities. If parents volunteer, and the administration permits, parents may be reimbursed for transportation of eligible

students whenever such practice is more economical or convenient for the school district.

In determining the provision of transportation for resident public and eligible private school students, the following guidelines regarding walking distances will be considered. Distance measurements will be based on the most direct route from the student's home beginning at a point at the curb or edge of a public road or highway nearest the home to the edge of the school property or bus pickup areas.

<u>Grade</u>	<u>Limit</u>
K	1 mile
1-3	1 mile
4-8	1 1/2 miles
9-12	2 miles

Students living within the stated limits will receive transportation when, in the opinion of the Superintendent of Schools, it is in the best interests of the district to provide transportation.

IV. Access to bus stops/transportation

Parents and/or guardians assume responsibility for ensuring the safety of their children up until the point when students board the school bus or other school provided transportation, and after students get off the bus after school. This responsibility includes the selection of walking routes to/from any bus stop and the provision of supervision that is appropriate to the student's age, maturity and conditions along the walking route and/or at the bus stop at all times. Given that bus pick up times may vary, the board expects that parents and/or guardians will ensure that their children arrive at the bus stop in advance of any scheduled pick up time.
